3. The following is an examiner's statement of reasons for allowance:

The primary reason for the allowance of claims 1, 3 and 5-9 is the inclusion of the limitation of the feed system includes a sinuous feed network coupled to a plurality of feed elements to provide a linear progressive phase shift in the electromagnetic wave along the feed source. It is this limitation found in each of the claims, as it is claimed in the combination, that has not been found, taught or suggested by the prior art of record which makes these claims allowable over the prior art.

The primary reason for the allowance of claims 10 and 12-13 is the inclusion of the limitation of the feed system includes a sinuous feed network coupled to a plurality of feed elements to provide a linear progressive phase shift. It is this limitation found in each of the claims, as it is claimed in the combination, that has not been found, taught

or suggested by the prior art of record which makes these claims allowable over the prior art.

The primary reason for the allowance of claims 15-19 and 23 is the inclusion of the limitation of for each subarray of the set, and input/output (I/O) port coupled to a subarray sinuous feed network and a plurality of spaced feed elements coupled to the sinuous feed network to provide a linear progressive phase shift for excitation signals applied to the subarray. It is this limitation found in each of the claims, as it is claimed in the combination, that has not been found, taught or suggested by the prior art of record which makes these claims allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
